

## Major Projects - Signs On For Platinum

Thursday, 07 February 2008

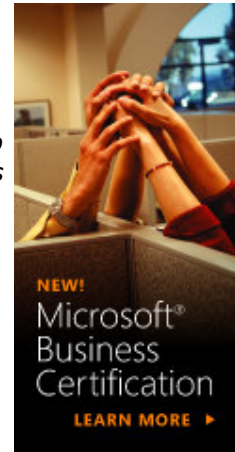

**Microsoft**  
**CERTIFIED**  
*Exam Provider*

Prodigy are delighted to welcome Major Projects to the Prodigy Partner Opportunity. As a Platinum Learning Partner they have the opportunity to run the Microsoft Business Certifications (MSBC), IC3 and Adobe Certified Associate I.T. qualifications.

**Maggie Dunkin**, Training Director of Major Projects noted – *"With an increasing demand to stay ahead of the game, we welcomed the opportunity to become a Platinum Learning Partner with Prodigy UK. Whilst we will still continue to offer the standard application training to those who want it, we are now in a stronger position to fulfil the needs of our clients."*

Major Projects began trading in August 1989 and were incorporated in May 1990. Since starting up, Major Projects traded first from Sandpiper House in Carlton, **Nottingham**. In March 2005, they moved, to Carlton Business Centre, a modern conversion of an old Victorian School.

Maggie added, *"By delivering **Microsoft Business Training and Certification** to our customers, we leave them with the proven skills to increase their productivity in the work place, as well as gaining an official qualification. Major Projects will be including all courseware in with the courses, including pre-tests and practice tests so we know we can give our clients every chance of gaining their MSBC."*

Microsoft Business Certification Courses are available through Major projects now.

*"Major Projects are really behind these qualifications and have had **enquiries already!**"* said Kevin Ryan Marketing Manager of Prodigy. *"After going through our Partner Induction programme we are looking forward to seeing Major Projects training lots of Microsoft Business Certified Students over the coming months."*
